## PROJECTS

### FOOD APP | DEEP LEARNING PROJECT

July 2024 - Present | HTML, React, Tailwind CSS

- Designed and developed a responsive Food App website using HTML, React, JSX, and Tailwind CSS.
- Integrated third-party APIs for real-time data fetching and updating, enhancing data freshness.
- Optimized front-end performance by implementing code-splitting and lazy loading, reducing load times by 30%.

### CODE EDITOR [Link](#)

August 2024 | HTML, CSS, Material UI, React

- Developed a web-based code editor using React, HTML, and Material UI, focusing on a smooth and responsive user interface.
- Implemented error-checking features to enhance the coding experience.
- Integrated file management capabilities, including saving, loading, and editing files directly in the browser.
- Utilized React hooks for state management, ensuring efficient data handling and user interaction.
- Conducted thorough testing and optimization to ensure cross-browser compatibility and fast load times.

### DICE ROLL GAME | FUN GAME PROJECT

Link May 2024 | HTML, CSS, JavaScript

- Created an interactive Dice rolling game with animated features.
- Managed game logic and state with JavaScript, ensuring 99% uptime and smooth gameplay through efficient code practices.
- Developed a responsive layout for multi-device compatibility, increasing mobile users by 30% and ensuring a seamless experience on all platforms.
- Enhanced user interfaces with CSS animations and creating an engaging visual experience.

### TODO LIST APP [Link](#)

June 2024 | HTML, Tailwind CSS, React

- Implemented Create, Edit, Delete operations to manage tasks, allowing users to add new tasks, mark tasks as completed, edit task details, and delete tasks.
